PROFESSIONAL EXPERIENCE

JobGet Canada, Remote - *Software Engineer*

MAY 2022 - PRESENT

- Develop new components and create new microfrontend apps and services using React, Redux, React Query, Tailwind, Material UI.
- Review and test existing and new code using Cypress to ensure it meets standards and specifications.
- Collaborate with team members and stakeholders to identify and solve problems.
- Stay up-to-date with the latest technologies and best practices in software development.
- **Tech stack:** TypeScript, React, Redux, Nx.

VIN-T (Self-Employed) , **Surrey B.C** - *Web Developer & Designer*

SEP 2020 - MAR 2022

- Design, develop and launch robust websites for local businesses helping them build an online presence, increase their sales and generate new leads.
- Help a diverse portfolio of local clients establish a digital presence, adapt to ever changing business needs particularly in the pandemic and develop personalized business plans that best meet their requirements.
- Provide actionable brand development plans/ social media strategies to businesses just getting started, helping them increase their online sales by 8-10% on average.
- **Latest Project:** Designed and developed a job board web application for a local recruitment agency based out of Surrey, [CA JOB LEADS](#) . Project included four different websites for under-represented groups in Canada and one shared dashboard for employers to post their jobs on websites of their choice. Tech Stack for this project included: Serverless Functions, React, Context API, Tailwind CSS, Firebase Auth, Sanity JS and Stripe JS.
- **Tech stack:** HTML, CSS, JS, React, Next.js, 11ty, TailwindCSS, Chakra UI.

BestBuy, Burnaby B.C. - *Frontend Developer.*

OCT 2018 - NOV 2020

- Started working part time in Best buy Retail, was quickly promoted to Mobile manager position.
- Early 2019, got an opportunity to go to corporate bestbuy as a junior frontend developer where I spent the following year as part of the team that built the new mobile activation interface called, Best buy Activate.
- Developed and shipped components using React-Redux for Activate, contributed extensively to SOC code widgets (promo codes) to make it easier for our retail employees to add the relevant promotions based on customer's profile eliminating a lot of the common errors that existed with the older system, Beast.
- **Tech Stack:** React, Redux, JavaScript, ContentStack(headless CMS), PostCSS.

Health in Time, HIT - *Co-Founder/Frontend Developer*

JAN 2016 - FEB 2018

- Started as a University Project, HIT was a healthcare management application that aimed to make patient flow in Emergency Rooms, and clinics easier to manage and cut down extensive wait times.
- Successfully tested the app in 4 clinics in Surrey, helping complement their existing information systems.
- **Tech Stack:** React, Redux, JavaScript, Node.js, Express, MongoDB.

Ace Multimedia, Surrey B.C. - *Business Development/Lead Marketing Web Developer*

JUN 2014 - NOV 2017

- Worked in partnership with a popular south asian television channel, ZeeTV Canada. Handled their online ad campaigns, website development and negotiated television ad sales for local businesses on their behalf.
- Developed online HTML banner ads, responsive email templates and landing pages for businesses associated with ZeeTV that helped increase online growth and revenue.
- Managed and organized revenue generating sponsored south-asian cultural events in BC and Alberta including talk shows, networking events and concerts.
- **Tech Stack:** Google Analytics, HTML, CSS, JavaScript, Adobe AfterEffects & Photoshop.
